Art Unit: 2876

1. Applicant's amendment filed 5/21/07 has been entered.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 15 remains rejected under 35 U.S.C. 102(e) as being anticipated by Lizotte 6,833,911. Lizotte discloses that maintaining databases of "ballistic fingerprints" in which images of bullets and cartridges covered from crime scenes are well known (col 1 lines 49-63). These databases are used for matching firearms to crime scenes by comparing spent cartridges and/or bullets from a crime scene to the database which contains the image data of previously spent cartridges and/or bullets.
4. Claims 1-14 are allowable over the prior art of record.
5. Claims 16, 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention, including ALL the other limitations of the subject claims the spent cartridge recess of claims 1, 16, 17 or the user provided shell casing image of claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Applicant's arguments filed 5/21/07 with respect to claim 15 have been fully considered but they are not persuasive. Applicant argues that the prior art of record fails to suggest a "kit" provided to a gun owner. The examiner does not necessarily disagree. However, this limitation is currently merely a preamble limitation that has not been given life within the body of the claim.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
